

F, 40 ans

Carcinome épidermoïde utérin, métastase pulmonaire, bilan avant une chirurgie d'exérèse.

Radiographie thoracique

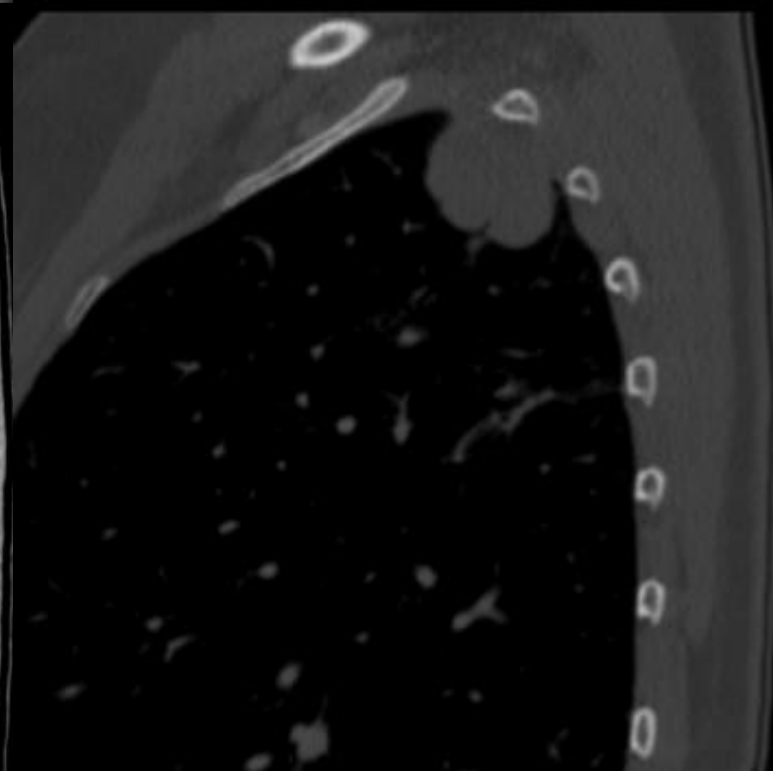

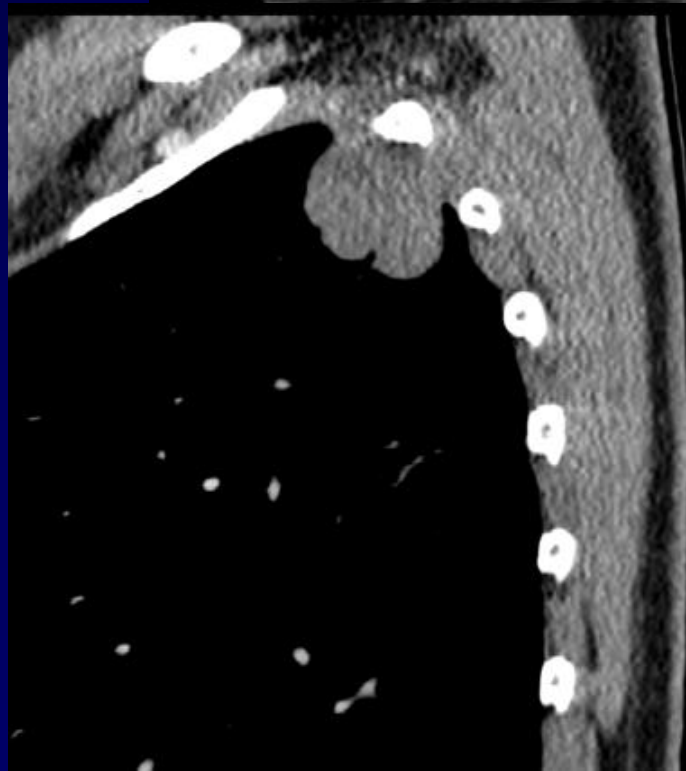

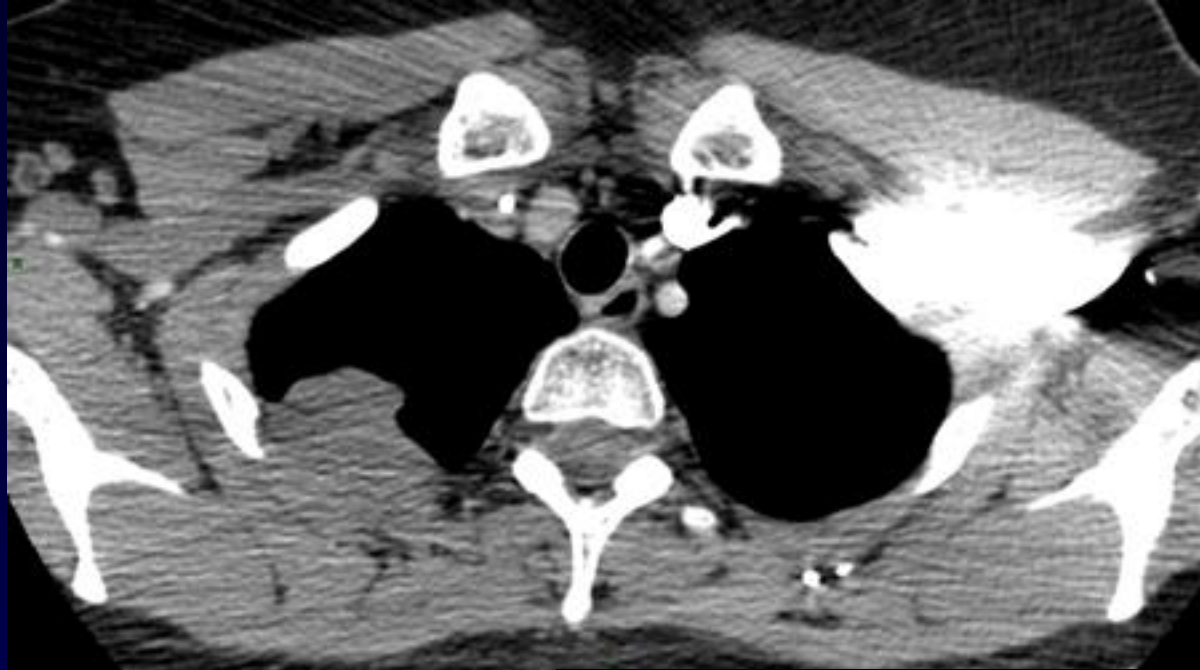

Existe-t-il une extension pariétale?

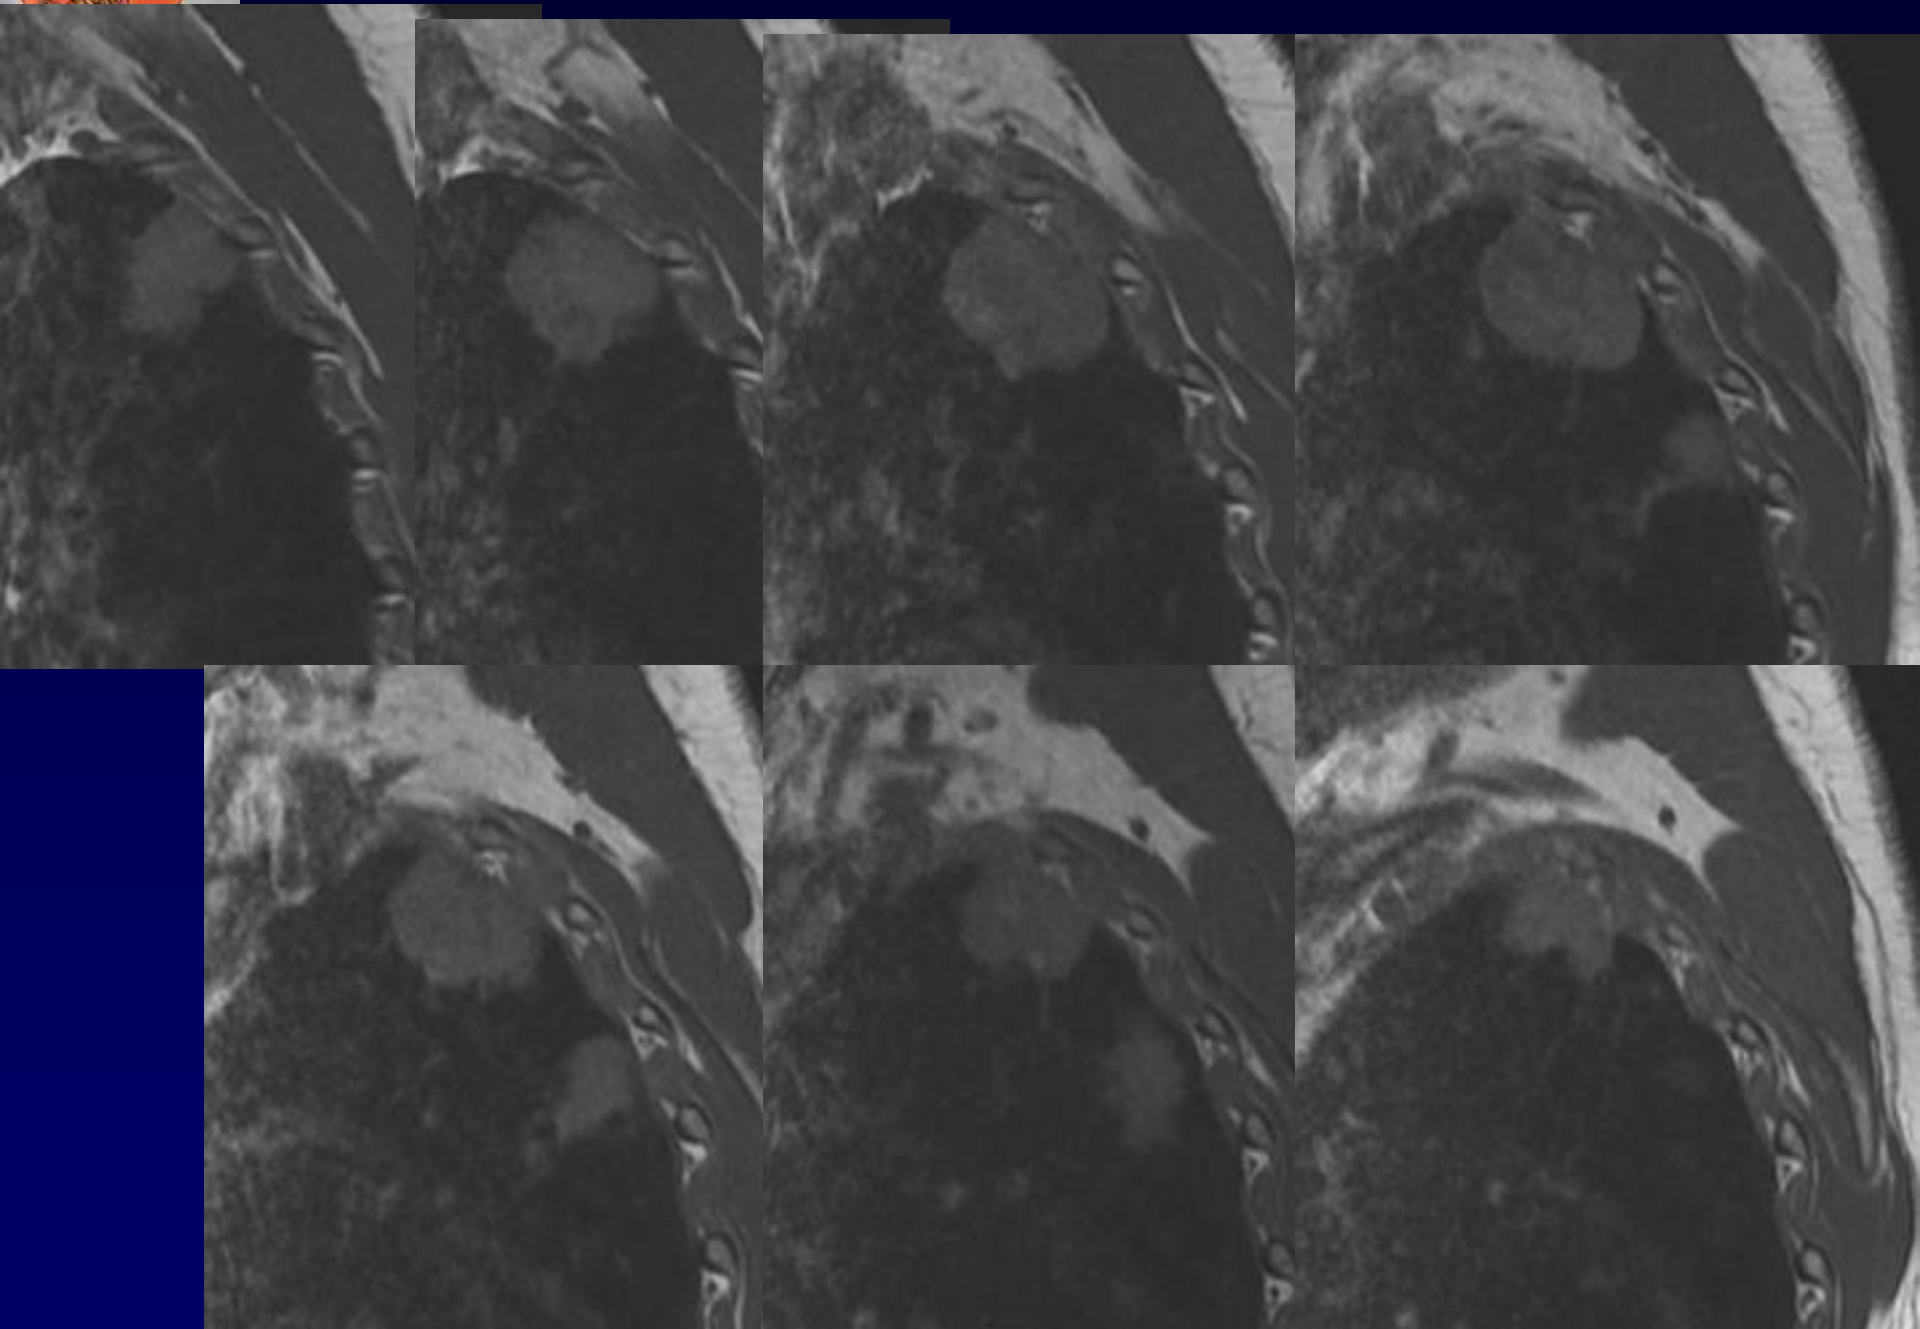

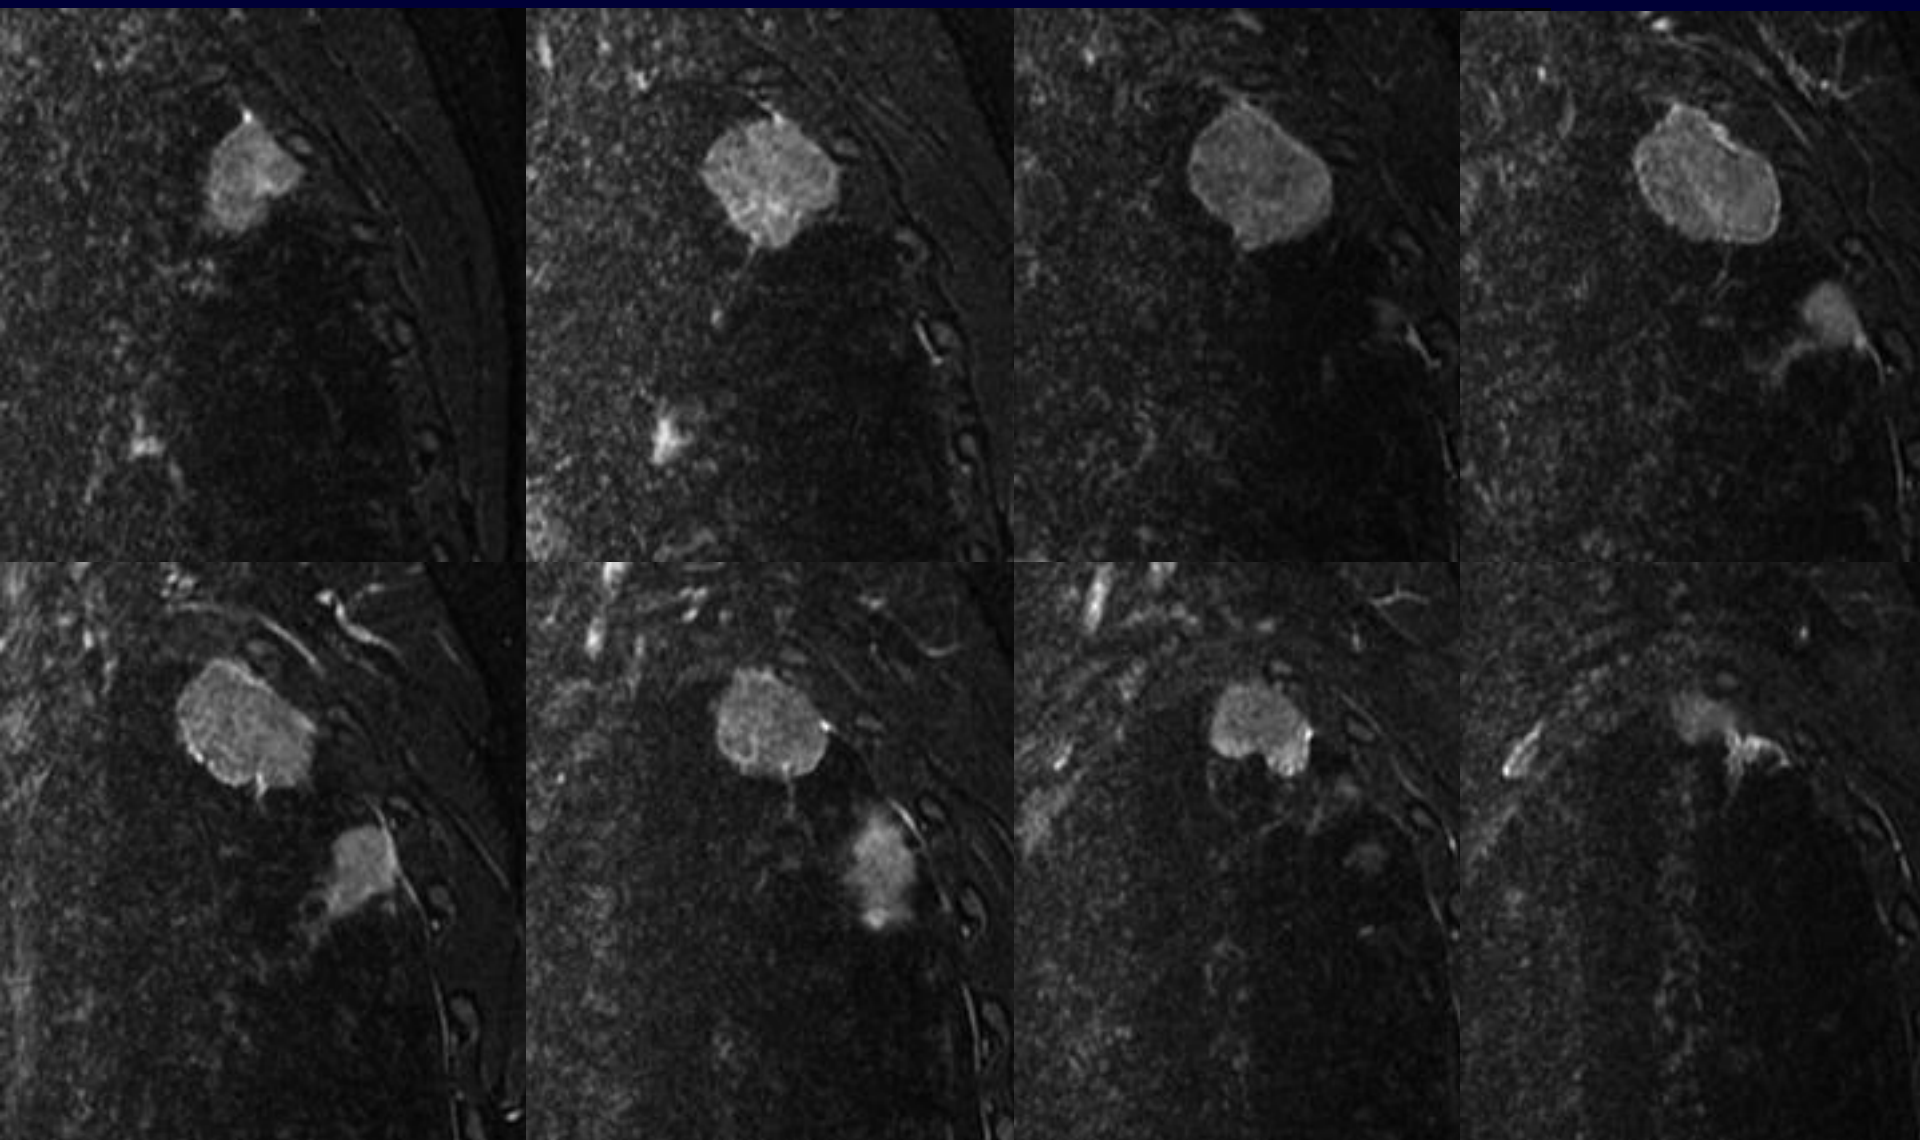

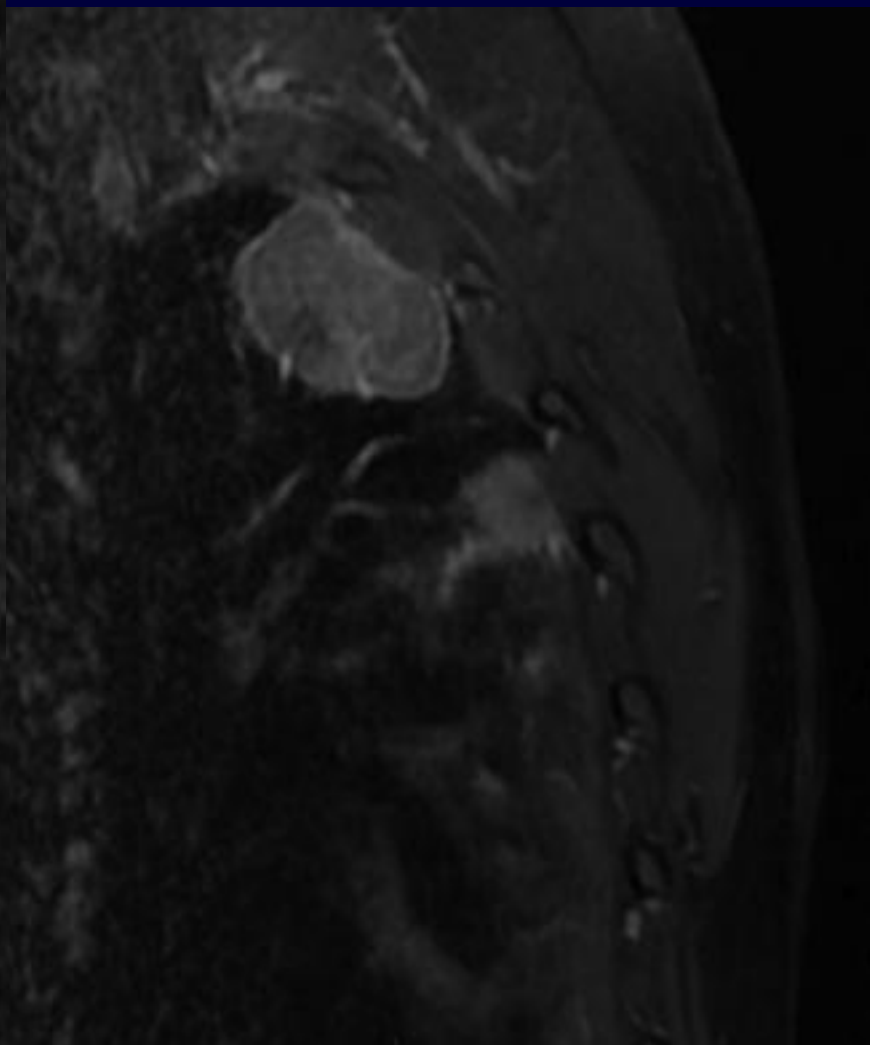

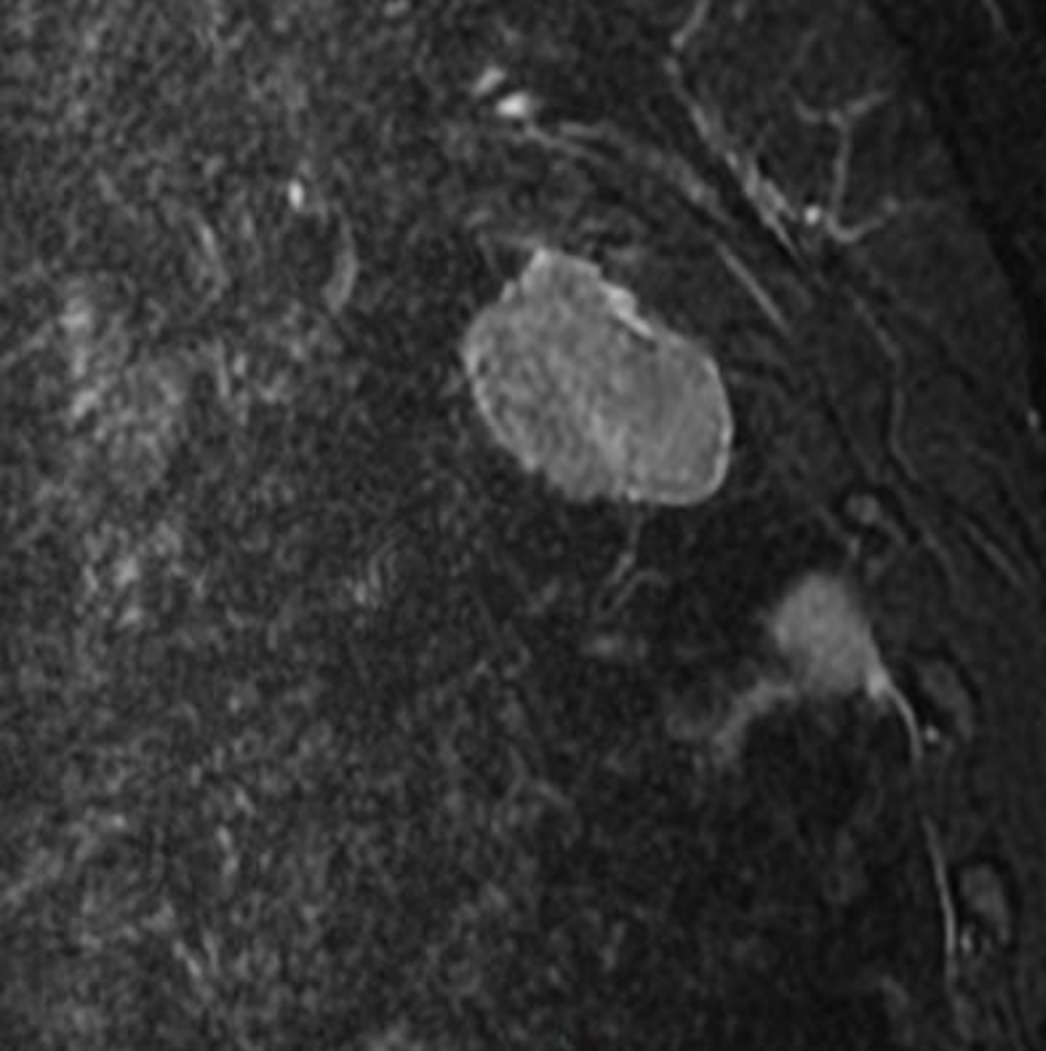

Le bilan pré opératoire est-il complet?

Quel est l'examen à faire avant la chirurgie?

Diagnostic

Masses pulmonaires multiples sans extension pariétale
Supériorité de l'IRM à l'examen TDM
